

# Omega Spawn F

## Supplementary feed for fish broodstock

### FEATURES

Omega Spawn F is a high quality supplementary maturation feed for fish broodstock. Containing top quality ingredients, Omega Spawn F can improve fecundity and egg quality. Omega Spawn F will help reducing biosecurity risk by replacing fresh seafood supplementation.

### BENEFITS

- Containing all necessary nutrients for broodstock.
- Preventing denaturation of essential nutrients.
- Highly attractive as it resembles fresh seafood supplementation.
- Quick and easy preparation: DIY concept.
- Convenient application.
- Easily formed in different shapes, such as worm shape.
