

# BactoSafe P

## Microbial water conditioner

### FEATURES

BactoSafe P is a concentrated bacterial complex specially selected to enhance water quality with added stabilizers and growth stimulants for detoxifying aquaculture grow-out ponds, improving the health and disease resistance of fish and shrimp. The specific strains have been selected for their beneficial action.

### BENEFITS

- Total bacterial concentration is  $> 2.0 \times 10^9$  CFU / g.
- Establishes a strong natural bacteria culture in the pond that suppresses the growth of harmful bacteria such as *Vibrio* sp.
- Increase PL survival and yields.
- Significantly reduces Zoea Syndrome problems.
- Regulation of the microbial ecosystem of culture water.
- Reduces dangerous levels of ammonia, nitrite and sulfide pollutants.
- Reduce needs for water exchanges providing a more bio-secure environment.

### INGREDIENTS

Contains non-toxic, natural microbial cultures and enzymes with added stabilizers on an inert carbohydrate carrier.

### INSTRUCTIONS OF USE

Weigh 5 ppm (5 g / m<sup>3</sup>), mix with water and spread evenly over the pond. Start using before stocking larvae and apply daily, compensating the water exchanged. In case of high ammonium or delays in the stages, apply 10 ppm. Activate 3 hours in advance before applying it. How to activate: vigorously mix 100 / 200 g in 1.0 L of water either manually or with aeration, then fill up to 5.0 L, and resuspend it every hour for 3 hours.

For large scale ponds apply 300 g / Ha / week the first 30 days, 100 g / Ha / week between 31 DOC until harvest (depending on organic matter density).

In Intensive Systems ensure the aeration after adding BactoSafe P.

### PRODUCT INFORMATION

BactoSafe P is non-toxic and harmless to humans or animals. It leaves no residues and has no withdrawal time. Should not be mixed with food, do not pre-mix with others products.

### PACKAGING

20.0 kg Drums (20 pouches per drum).

### STORAGE CONDITIONS

Store in a dry and cool place (best at 20 °C, max 35 °C).

Shelf life: 2 year.

Not all products are available in all regions. BERN AQUA NV, an ADM brand, makes no representation or warranty, whether expressed or implied, as to the reliability, or completeness of the information. The uses and claims should be adapted to comply with the current local/regional regulatory environment. This information does not imply any express recommendations for the cure, mitigation, treatment, or prevention of disease. GENERAL RELEASE - creation date : 04/2024 - V2

#### ADM IS YOUR GLOBAL LEADER IN ANIMAL NUTRITION

We are dedicated to enabling sustainable growth. Growth that benefits our customers, the world's population and this planet on which we live. We are One ADM Team working across a unique vertically integrated portfolio, providing exceptional levels of customer service and experience as we work together to address the three main challenges that our customers face: health through nutrition, performance & quality, and sustainability.
