

### FEATURES

Vitellus is exclusively composed of first quality Artemia cysts. The cysts have been opened and their content extracted. The extracted artemia is processed with the most recent techniques, which guarantees the total preservation of the unique nutritional qualities of the Artemia cyst.

### BENEFITS

- Artemia replacement.
- Saving work and space at hatchery level.
- Preventing denaturation of essential nutrients.
- Elaborated directly from Artemia cysts.
- No need of decapsulation.
- Irradiation step to improve microbial safety.
